SOFTWARE DEVELOPER

EDUCATION

Bachelor of Science in Information Technology (B.Sc I.T) | Mumbai University

- CGPA: 8.9
- Year of Graduation: 2023

Certified Ethical Hacker (CEH) | EC Council

- Year of Completion: 2024
- Certificate No: [ECC7182649503](#)

PROFESSIONAL EXPERIENCE

Software Developer | Vita Health RCM

Feb 2025 - Feb 2026

- Managed end-user support, access control, account provisioning, and IT operations for a secure corporate environment.
- Administered Windows servers, desktops, Active Directory, OS configurations, disk management, patch management, and endpoint security.
- Configured and maintained LAN/WAN infrastructure, Wi-Fi networks, routers, VPN connectivity, and network security controls.
- Performed system monitoring, troubleshooting, log analysis, and incident investigation to ensure maximum system availability.
- Managed software deployment, IT asset lifecycle, backup operations, and security compliance activities.
- Implemented website filtering, access control policies, and monitoring solutions to enhance organizational security.
- Conducted vulnerability assessments, security reviews, and remediation activities to reduce infrastructure risk.
- Supported firewall administration, user access management, and endpoint protection initiatives.
- Developed internal automation tools and web applications to improve operational efficiency and business workflows.
- Built RPA solutions for healthcare RCM platforms (Prognosis & Luna), supported secure business operations through cross-functional collaboration, and gained expertise in U.S. Healthcare RCM workflows and compliance requirements.

PROJECTS

Project	Tech Stack	Description
Break Tracking System	Python, RPA, Email Automation	Employee break tracking with User / TL / Admin dashboards + auto reporting & alerts
Website Blocker	Python, System Control	Real-time website blocking, browsing restriction & monitoring

Reconciliation Tool (ERA + BAI)	Flask, Python, Parsing Logic	Automated reconciliation for U.S. Medical Billing with reporting & validation
Microsoft Teams-like Chat System (MERN)	MongoDB, Express, React, Node.js, WebSocket/Socket.IO	Real-time messaging system with users, groups, presence, file sharing & notifications
AI-AR Object Assistant (In Progress)	Python/Node API, ARCore/ARKit, Vision Models	AR app that detects real objects & displays AI-generated information overlay
EOB → Excel Converter	Python, PDF Parsing, Excel Automation	Converts EOB PDFs into structured Excel format for billing operations
Production RPA Bots	Python, Selenium, Undetected Chrome Driver, Web Manager, AI Logic	Automates insurance claim status checks, data fetching, and correction tasks inside web-based RCM systems like Prognosis & Luna. Works as a human-like operator to improve production speed, reduce manual workload, and maintain accuracy while avoiding bot detection controls.
Custom File Encryption & Security Tool	Python, Cryptography, OS Libraries	Ethical security utility for file locking, encryption, and penetration-testing awareness
Network Health & Security Monitor	Python, Socket Programming, System Hooks	Monitors device status, bandwidth usage & unauthorized access attempts
Desktop Automation Shortcut Launcher	Python, UI Automation	Workflow automation tool for launching scripts/apps with voice or hotkeys

E-Commerce Web App	HTML, CSS, JS, PHP	Shopping platform with products & user system
Jarvis & Shree	Python, AI/ML, Vision APIs	Voice-based AI assistants for PC automation + image generation (Shree)
ChatGPT-like Website	NodeJS, WebSocket, API	AI conversational web interface similar to ChatGPT
Virtual Mouse using AI Gesture Control	Python, OpenCV, MediaPipe/AI Vision	Hand-gesture controlled mouse system replacing hardware interaction
Face Recognition Attendance System	Python, OpenCV, face-encodings	Identity recognition for attendance/security automation
Secure PDF Editor	Python, Flask, PDF Libraries	Merge, split, redact PDFs ensuring data protection (RCM security based)
User Activity Tracking & Event Logger (Ethical Security Tool)	Python, Pynput, System Hooks, MS SQL Server (SSMS)	Tracks keyboard and mouse inputs in a permission-based corporate environment and securely stores event data into SQL Server. Used for productivity tracking, compliance monitoring, and enhancing internal security awareness within organizational systems.
Inspect-to-Excel Tool	Python, PyQt6 (GUI), MS Excel Automation	Desktop tool that converts inspection data into formatted Excel sheets with secure login, database access control, and one-click export to reduce manual work.
UHC Claim Status & Payment Bot	Python, Undetected Chrome Driver (UCD), Web Automation, Excel & DB Integration	Chrome Driver (UCD), Web Automation Automated UHC portal bot that fetches claim status & payment details, downloads related documents, and exports results into Excel/DB using human-like, bot-resistant browser automation.

Credentailing Website	HTML5, CSS, JS, Python, Flask, Gunicorn	A secure, role-based web application for managing provider credentialing, payer enrollment, document verification, and status tracking in RCM operations.
EOB-to-835 Converter	Python	A healthcare automation tool that converts EOB documents into ANSI X12 835 ERA files by extracting and validating payment and claim data for RCM posting and reconciliation.

TECHNICAL SKILLS

- **Python Development:** Python, Flask, PyQt6
- **Full Stack Web Development:** MERN Stack (MongoDB, Express, React, Node.js)
- **RPA & Automation:** Selenium, Undetected Chrome Driver (UCD)
- **Databases:** SQL Server, MySQL, PostgreSQL
- **AI / ML:** LLMs (ChatGPT, Gemini, Claude, Microsoft Copilot), NLP, Computer Vision
- **IT & Networking:** Windows Administration, LAN/WAN, Access Control
- **Cybersecurity:** CEH Security Concepts, Ethical Internal Tools
- **Tools:** Git, Power BI, Visual Studio Code

CERTIFICATIONS

- Certified Ethical Hacker (CEH) — EC-Council | 2024
- Google Cybersecurity Professional Certificate — Coursera | 2024
- Python Programming Certification — DevTown | 2023

PERSONAL DETAILS

- Date of Birth : 28 March 2003
- Gender : Male
- Marital Status : Single
- Languages Known : English, Hindi, Marathi
- Hobbies & Interest : Cricket, Photography, Exploring AI Tools & Cybersecurity Trends
